## PROJECTS

### Simon Game

Apna College • [sachin-nayak02.github.io/Simon-game/](https://sachin-nayak02.github.io/Simon-game/) • October 2024 - October 2024

- Developed a memory-based game where users replicate an increasing sequence of colors and sounds. Demonstrates logical thinking, user interface design, and problem-solving skills. Built with technologies like HTML, CSS, JavaScript. Enhanced gameplay experience with intuitive feedback for correct and incorrect actions.

### Mystic Odisha

• [sachin-nayak02.github.io/Simon-game/](https://sachin-nayak02.github.io/Simon-game/) • January 2025 - Present

A comprehensive web-based tourism platform designed to showcase the rich cultural and natural heritage of Odisha. The project features detailed information on attractions, destinations, festivals, and cuisine, along with an interactive map for easy navigation. It includes user-friendly search options to enhance the travel experience. Additionally, authentication features like signup, login, and password reset using Gmail OTP have been implemented. The platform aims to promote Odisha tourism by providing a seamless and informative user experience.
